FROM QUARRY TO CROP

Give your students a hands-on experience to grow their knowledge in life science, physical science and Earth science.

www.MineralsEducationCoalition.org
Everything is either **grown** or **mined**.

Experience one of the ways our food requires both farming and mining with this hands-on activity, which is:

- Hands on
- Step-by-step
- Multigrade
- Aligned with state and national education standards

Visit the following link to see the lesson plan, view the aglime video and to watch the “how-to” video for the setup of the experiment:
